Art Unit: 1644

1. Claims 1-13 and 51 are pending.
2. Claims 4-5 and 8-58 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 9-28-04.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3 and 6-7 stand rejected under 35 U.S.C. 102 (b) as being anticipated by Riemen et al. (21 on the IDS submitted 8-16-02), for reasons of record set forth in the Office Action mailed 2-25-05.

Applicant arguments filed 8-29-05 have been fully considered but are not found persuasive.

Applicant argues the abstract book was not published until April 27 of 1998, thereby obviating the 102(b) rejection.

However, as stated in the previous Office action, abstract books are frequently publicly available prior to the actual meeting, since they are commonly mailed to attendees to review which poster presentation they wish to attend prior to going to the meeting.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1644

5. Claims 1-3 and 6-7 stand rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, for reasons of record set forth in the Office Action mailed 2-25-05.

Applicant arguments filed 8-29-05 have been fully considered but have not been found persuasive.

Applicant argues that in view of the amendment the claims are definite.

However, the claims do not define what parameters need to be met to determine if the patient is responding to treatment or has cystic fibrosis. As such the claims remain indefinite.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
